

Southeast Florida Cancer Control Collaborative

One Community Fighting Cancer

Who we are and what we do

The Southeast Florida Cancer Control Collaborative (SFCCC) is represented by more than 80 public and private sector health care providers and advocacy groups. Since 2001, SFCCC has been a venue for those interested in cancer control to work together and provide educational services, share information about local resources, and network with other professionals. The Southeast Florida region include Broward, Indian River, Martin, Miami-Dade, Monroe, Okeechobee, Palm Beach, and St Lucie counties.

www.healthcouncil.org/sfccc

Through these partnerships, SFCCC is dedicated to improve access to cancer care and decrease the burden of cancer. Our united effort allows for the promotion of education, advocacy, and research for the people of Southeast Florida.

SFCCC Workgroups: Help to address the goals of the Florida Cancer Plan using evidence-based strategies.

- Disparities: Focuses on promotional and educational outreach to groups with high incidences of cancers by increasing awareness for screening and vaccination.
- Risk Reduction: Promotes healthy lifestyles, screenings, and vaccinations.
- Survivorship & Quality of Life: Supports activities to support survivors and their caregivers to live high quality lives.
- Synergy/Networking: Serves as the marketing group and depends on each work group for content for promotion.

Role of Members: Members shall attend at least two meetings per year and/or participate in workgroup meetings or conference calls, as convened by workgroup leaders

SFCCC Activities
